

Denight Biography

When in 1999 ex-Diary of Dreams guitarist Tim and singer Stephan met first, it was like magical gravity. Tim had had a gig that day when the two got to know each other during the after show party. When they met again on a party soon was clear that the musical chemistry between them was perfect. Tim was fascinated by Stephan's voice, which fits exactly to the type of music, Tim wanted to experiment with.

The logo of Denight is built out of a sygil. This sygil stands for ›Saturn‹, which simultaneously stands for the Greek god ›Chronos‹ which means time. The bandlogo stands for endurance, but also for birth and decay, which is mirrored within the lyrics of Denight.

Tim Stephan two developed some of the primal versions of some of the songs, which were published on the debut »Above and Beyond«. Soon other musicians got interested in the Project and Denight grew up to a live Band.

This is Denights current line up:

Stephan - Lead-Vocals,
Tim - Lead-Gitarre,
Holger - Gitarre,
Markus - Keyboards,
Mad - Bass & Vocals,
Mischa – Drums

The different styles of the musicians, which derive from various genres of the underground, are like single parts of a puzzle, which together build Denight as a whole.

In the summer of 2007 their debut »Above and Beyond« was published. The voices of the audience and especially the press were completely positive.

At the WGT 2007 Denight presented their debut cd live at the Moritzbastei in Leipzig to a mass of a cheering crowd for the first time. Gigs in Hilden and Konstanz followed. With their live gigs they became a speciality just for insiders in a very short time.

In 2010 Denight signed to their actual Label Echozone. On the 14th of May 2010 the long awaited follower of "Above and Beyond" was released through this label. "Human Reflections" is the name of this dark and epic arranged piece of rock music.

Through the good work of the Label, the Band got more and more contacts to organisers and got a lot of press resonance to Human Reflections. They also got their songs placed on a lot of great samplers like the Gothic Romance Sampler 4 along with bands like: Paradise Lost, Mono Inc., Love Like Blood, Nightwish, Megaherz, Sirenia, Lacrimas Profundere, Theatre Of Tragedy, Letzte Instanz und Schandmaul.
